

Manage Benefits and P&C with Applied Epic®

Applied Epic, the fastest growing and most widely used management system in the world, provides essential capabilities for you to better manage policy and benefits administration across all lines of business, reducing time and expenses spent managing separate systems.

For the first time in the insurance industry, Applied Epic incorporates native benefits functionality so that you can easily manage both your P&C and benefits book of business in a single application. The robust benefits capabilities within Applied Epic provide you with a single source of truth about your clients so that you can capitalize on cross- and up-sell opportunities.

Epic Benefits provides your agency with:

- Benefit-specific screens to capture general plan information, rates, coverages, eligibility criteria, stop loss, and TPA information.
- Commission rate tiers, including flat-fees per risk.
- Unique, pre-built custom forms and templates to present plan summaries, including government-mandated summary of benefits and coverage.
- Support for Fee-for-Service activity, including tracking and billing.
- RFPs and plan summary comparisons created through plan/coverage detail export.
- Insured detail import of census and election information.

“ Having our Benefits and Property & Casualty business in the same system creates a huge advantage. A large percentage of our business is from cross-selling to our customers. ”

Duane Ray, Vice President, Epic Insurance Solutions

Enables your agency to

- Gain a complete and holistic view of each client and prospect across all lines of business
- Identify cross- and up-sell opportunities easily
- Reduce data entry
- Deliver quicker, more timely service
